## Will the Wetaskiwin High School be Closed?

Since the last meeting of the public school board, when a resolution was passed reducing the salaries of the staff ten per cent for the remainder of the year, two of the teachers have tendered their resignations and it is rumored that the high school might be closed altogether. This is a question of the greatest importance to every resident of the city and surrounding country, as it appears to us the high school should not be closed, whatever the cost. The question of expending teachers at the reduced salary to fill the vacancies must be confronted, and as the standard of salaries throughout the west is higher than that paid in Wetaskiwin, it might be inferred that the applicants for the positions will be less qualified for the work than the present staff. This will likely reduce the standing of the Wetaskiwin school from the most efficient in the province to second, or even lower rank.

## Mrs. McClung Coming

Alberta's most brilliant woman lecturer, Mrs. Nellie McClung, will address the public under the auspices of the W.C.T.U. on Friday evening, June 25, at the Angus Theatre. Her subject will be "The Land of the Fair Deal." All who have heard Mrs. McClung speak know that a treat is in store for them, and a Wetaskiwin is indeed fortunate in having the opportunity to hear her. This popular lecturer's services are in such demand in Edmonton and throughout the province. The admission price has been placed very low, 25c, so that all may hear, and a large audience is hoped for. There will be special music before the lecture, also moving pictures.

## Women's Relief Corps Notes

The regular business meeting of the Corps was held on Wednesday. After the usual business had been dealt with, the reports of the various committees were received.

Mrs. Rubbra, convener of the ways and means committee, reported a total of \$37.50 raised by her workers during the month by means of the tennis tournament, and suggested a lawn tea would be given later. This committee has taken in charge also the distributing of the Red Cross boxes. A thorough canvass will be made and we hope that all the people of the city will take one and bind themselves to the 5 cents a week contribution. These boxes will be collected again on the 30th of October.

Mrs. Miquelon, convener of the sewing committee has sent a bale consisting of the articles mentioned in last week's paper. A letter was received from the Red Cross Society, designating this last installment as perfectly splendid.

Mrs. Montgomery, convener of the relief committee, has sent to three families a collection of old clothing which will be helpful to them. A resolution was passed authorizing the treasurer to send \$100 to the Red Cross Society for anti-typic dressing and \$20.00 for the comforts of those at the front.

## DOMINION DAY

An account of E. A. Boydall's car automobiles to Bittern Lake was referred to the fire and water committee for investigation.

## Communication

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times

Judas sold his Master for thirty pieces of silver and then betrayed him with a kiss. So some men do them is the thirty pieces of silver—popularity, personal friendship or public opinion—and then betray him with the kiss of sophistry.

The church, Judas-like, has often sided its Judas with a resolution and then betrayed him with the ballot. Church members have often been more faithful with their prayers than with their ballots. During a local option campaign in a Quebec town at a Ministerial gathering to consider ways and means for carrying out the campaign, one of the ministers said: "Brethren, let us pray. We need prayer, more prayer and then we need work and hard work. We need prayer, true prayer which is not mere petition, but the attitude of the whole life to God."

We need baptism, because we are facing misrepresentation, deliberate and malicious. We must deal with opponents many of whom are without conscience and without scruple. Men of low moral quality who think and say with Walpole, "Every man has his price." Who look upon all men as having as low morals as themselves and they say that all will come their way if they are only granted enough.

We will consider then the misrepresentation of the liquor party which I have termed the Liquor Dealers' Defense because their only defence is misrepresentation.

1. They say the Liquor Act is not Prohibition.

No Act can bring about absolute prohibition of any crime. What it can do is to make the offence a crime and declare the penalties for its commission. This the liquor men in their own pamphlet admit the act does. It is a provincial Act and as such can deal only with those powers which are invested in the province.

The liquor men would be the first to assert its illegality if it went beyond those powers. The liquor men would be the first to assert its illegality if it went beyond those powers. The liquor men would be the first to assert its illegality if it went beyond those powers.

**WORSE THAN SUBMARINES**

To the Editor:  
"Drink is doing us more damage  
than all the German submarines put  
together." Who said that? Lloyd  
George, the English Chancellor of  
the Exchequer. He is no temperance  
fanatic, but a cool-headed statesman  
speaking from broad knowledge and  
inside information. And what he  
said is literally and statistically true  
of England, and the same principle  
applies to our own country. The  
submarines are limited to the sea  
and to a narrow range within the  
sea, but strong drink goes every-  
where over land and sea through the  
air and into the homes of the peo-  
ple. It can slip into the most hid-  
den and secure recesses where a mo-  
ther thinks she has her boy safe and  
store him at a torpedo ship under  
the sea and explodes against the side  
of a ship. Submarines are secret  
and subtle enemies, but not half so  
subtle and deceptive as strong drink.  
Submarines can destroy only a few  
ships worth a few millions of dollars  
but strong drink destroys more prop-  
erty than all the battleships and  
fires and floods of the world. Sub-  
marines can kill only a few men, but  
strong drink slays them by countless  
thousands and has filled more graves  
than all the wars of history. Eng-  
land cannot stop German submarines  
but Russia has stopped strong drink.  
What Russia can do Canada  
can do, and if we are wise and  
progressive and courageous as the  
land of the Star we will clear our  
coasts and country of this enemy  
that is doing more damage than all  
the submarines of the world could  
do us put together.

of the bride's parents, Mr. and Mrs.  
Chris. Robt, five miles northwest of  
town, last evening, the ceremony be-  
ing performed by the Rev. Mr. Hos-  
man of Leduc.

For the fourth successive year  
this year they have built their nest in the  
laid chimney on R. B. Price's house.  
This year they married earlier than  
last year, and the same day, the  
eight young ones left their nest, and  
were taken to the den where they  
started out in life's "struggle."

### HOVER

What's the matter with Emil Hag-  
strom? It's a Ford.  
Mr. B. D. Greiner is busy fencing  
the quarter which he leased in the  
Popular Blvd district.  
Have you heard the news about  
Charlie? He is eating after Edmon-  
ton returns now. After all it's the  
good old stage again—try the ice  
first.  
Road grading is now in full swing  
here. George knows how to make  
'em good.  
Mr. John Shaw's newly fenced quar-  
ter looks splendid and adds much to  
our growth upward. When pointers  
and paper hangers have done their  
work George Meyer's fine house will  
be one of the first order.  
Mr. Eric Persson is building a fine  
new house. Kee's Lumber is ad-  
vancing.  
Mr. and Mrs. Wm. Meyers met with  
a surprise on Thursday evening last  
when a half dozen women friends  
from J. J. Borst's visited them.  
Geo. W. McIntosh, our new teacher  
seems to be a farmer. Have you  
seen the school and yard? Mr. McIn-  
tosh reports the attendance at 20  
pupils now.  
D. Widson paid a visit to our dis-  
trict recently. Come again Dave.  
Religious meetings are said to be  
promised for our district shortly.  
Welcome every helpful body.  
What's the matter with the Kaiser  
and the rain? Matter enough.  
Necessity knows neither law or de-  
fect. O, you Gov't Troopers and  
the bar wire fence!  
Our district looks fine. Crops pro-  
mise a rich average. Hay looks  
fine.

Germany, with five million men in  
the field, is supposed to have lost  
two million in killed, wounded and  
missing. France, with four and a half  
million, has lost 1,300,000 of which  
300,000 were killed. Adding the Bel-  
gian, British, Austrian and Serbian,  
the total losses must be nearly 6,000,  
000 of whom nearly 1,500,000 have  
been killed, died of wounds, or died  
of sickness and exposure. No wonder  
mankind is uniting against the  
"bloody" Kaiser.

### WETASKIWIN DRUGGIST PLEASES CUSTOMERS

T. F. Ball reports customers great-  
ly pleased with the QUICK action of  
simple buckthorn bark, glycerine, etc.,  
as mixed in Adler's-ka. This simple  
remedy drains the old foul matter  
from the bowels so THOROUGH that  
ONE SPOONFUL relieves almost any  
CASE of constipation, sour or gassy  
stomach. It is so powerful that it  
is used successfully in appendicitis.  
Adler's-ka never gives and the IN-  
STANT action is surprising.

## HAD CHOLERA MORBUS.

### SO BAD COULD NOT SIT UP.

Attacks of cholera morbus are caused  
mostly by indigestion in diet, the use  
of unripe fruit and raw vegetables, and  
usually occur during the hot summer  
months.

On the first sign of this very weakening  
trouble Dr. Fowler's Extract of Wild  
Sawberry should be taken.

Mrs. George Lee, Rathven, Ont.,  
writes: "I was taken with cholera  
morbus, and I was so bad I could not  
sit up any more than five minutes at a  
time. My husband said I looked as if I  
had been sick a couple of days. I got a  
bottle of Dr. Fowler's Extract of Wild  
Sawberry, and I took the whole of it  
on one day, and it completely cured me.  
We are never without it in the house for  
I don't think it can be beat."

When you ask for Dr. Fowler's Extract  
of Wild Sawberry, see that you get "Dr.  
Fowler's" as imitators have gone so far  
as to imitate our wrapper both in color  
and style, and have adopted familiar  
names, such as Strawberry Compound,  
Wild Strawberry Compound, Extract of  
Sawberry, etc.

"Dr. Fowler's" has been on the market  
for the past 70 years, and is acknowledged  
by all who have used it to be a sure cure  
for all bowel complaints.

Price, 25 cents.

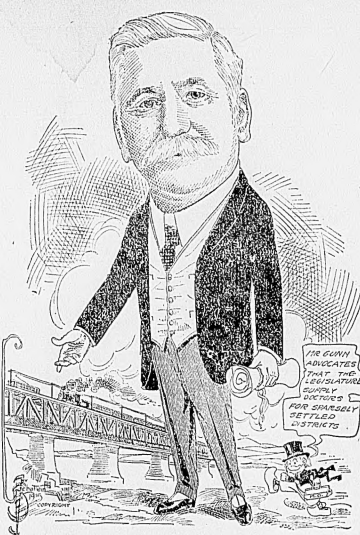

Manufactured only by The T. M. Murrill  
Co., Limited, Toronto, Ont.

## THE POTATO

Everybody may think he or she knows the potato, but a perusal of Pamphlet No. 3, issued by the Publications branch, department of agriculture, Ottawa, upon the Solanum tuberosum, will convince the same he or she that there is much to learn. A reprint from the Agricultural Gazette, official mouthpiece of the department, the pamphlet is a collection of articles of superlative worth. Introduced by a history of the potato, it contains a complete statement showing the place the potato occupies in the world's domestic economy, and especially that of Canada, by which it would appear that the crop is worth to this country upwards of \$41,500,000 a year, we are presented with a complete exposition of the cultivation of the tuber by Mr. W. T. Macdonald, a horticulturist. Mr. H. T. Gussow, Dominion botanist, explains first the diseases to which the potato is subject and how they can be controlled, and next, the results of inspection under the "Destructive Insect and Pest Act." Essays telling the story of potato production in each of the provinces by secretary of agriculture, Theodore Ross, of Prince Edward Island; superintendent of agriculture, P. L. Fallis, of Nova Scotia; secretary for agriculture, J. B. Duggan, of New Brunswick; professor of agriculture, H. B. of Quebec; professor T. G. Baile, of MacDonald College, Professor C. A. Zavitz, of Ontario Agricultural College, Prof. J. J. of Saskatchewan; deputy minister of agriculture, Geo. Hargrave, of Alberta; assistant soil and crop instructor, W. Newton, of British Columbia, and the secretary of the Canadian Seed Growers' Association, J. E. Williams, are important and the best of the world's production for three years. The table shows Germany to be the greatest potato producing country and also that, excepting in Canada and the United States, the production is everywhere on the decline. Everybody concerned in potato growing will be interested in this pamphlet and should send for it to the Publications branch, department of Agriculture, Ottawa.

# HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years,  
"Fruit-a-lives" Brought Relief.

MR. WHITMAN

322 St. Valer St., Montreal.

"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 160 pounds. Several of my friends advised me to try 'Fruit-a-lives' and I did so. That was eight months ago. I began to improve almost with the first dose. No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-lives', and by using it I recovered from the distressing Stomach Trouble, and all pain and Constipation and misery were cured. I completely recovered by the use of 'Fruit-a-lives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-lives' enough."

(Continued from Page One)

dealers their leaders asserted "If they permitted such temperance legislation to pass from the Great Lakes to the Pacific the trade would be wiped out. Then they say the Liquor Act does not prohibit they are either lying now, or they lied before and obtained money under false pretences.

2. In a pamphlet in which they make a comparison of the present license act and of the Liquor Act they lead the present license system. Strange how men's opinions change. Prison walls look good to a man when a scaffold appears on the horizon.

Before the liquor men disliked the license system and they broke it. During 1914 there were 8 convictions and there have already been 19 convictions in 1915. No sane man will believe that these represented even ten per cent of those who broke it. It is being broken every week in Wetaskiwin by the giving of liquor to men who are in an intoxicated condition.

Eight sections of the Liquor Act are taken from the present license ordinance.

In this pamphlet they have great compassion on the Interdicted and say the liquor act makes no provision for his protection. He will not need protection as there will be no interdicts since so many can supply another with alcoholic liquor as a beverage. But today they supply the man on the Indian List when they think they will not be prosecuted. I myself have taken an Interdict from a bar when he was known by every person, male and female, employed in that hotel. The man on the Indian List is the child of the license system. The liquor dealers created him.

They say the license system makes provision for the purity of liquor which the liquor act does not. No need of guaranteeing the purity of a beverage when it is produced by law. Liquor used for medicine will come under the pure drugs law.

But liquor is sold in many of the hotels in Alberta. It is sold by the big men are frequently heard cursing the keepers for the "rotten stuff."—this is their spirit, not mine—servants so to them. I have seen a farmer drive to town sober and made drunk in twenty minutes. Now I ask will pure liquor do this to a drinking man?

3. They say the license system makes provision for first class accommodation, sanitary and complete. Yet the commercial travellers say the majority of the hotels in Alberta are run largely for the booze end of the business, and not for the accommodation provided. I met seven travellers in Sunfield Alamo hotel and on expressing my surprise to one on meeting so many in a small hamlet of 100 people he said "This hotel is run for the accommodation of the traveller and not as a booze joint like the hotels on this line and the Crow's Nest." During a two months trip to England with almost every night in a new hotel or pension I found not one medium or unsatisfactory where no saloons were attached. And out of eleven with found no vermin in the beds, but the night before I left Canada and the night I returned although I spent them in what was then one of the better hotels in Montreal, I had to have my room changed both nights. Raymond and Cardston provide better accommodation for the travelling public than the majority of towns in Alberta of similar size and they are dry. South Mountain and Winchester had better accommodation under local option than under license. Travellers hustled through the wet towns on both sides to put up at these hotels.

4—Applicants for hotel license they say, must have good character. Will they answer how many of their good characters have lost or had their license suspended for keeping common dives. Eight of them last year and nineteen of them this year convicted as law-breakers for the breach of one law alone—the license law.

The liquor organs have blamed the present temperance wave which is passing over the western states and Canada on the low character of a great many of the saloon-keepers and suggested that distillers and brewers would refuse to sell to these low and unscrupulous men.

When at Cardston in Edmonton I was talking to a man whom I afterwards learned was an hotel-keeper. I mentioned some of the difficulties

of the hotel-keeper, how he is blamed for things which he has no power to control. He said to me "I see you are an hotel man yourself and we can blame much of the temperance sentiment in Canada today upon the hotel men who break the law and upon the low character of many of the men who are engaged in the trade.

He got a surprise when I informed him I was only a poor Methodist preacher.

5. They say the Liquor Act will create blind pigs which the license system forbids. But the liquor Act makes and punishes every one convicted of selling liquor as a beverage as a keeper of a blind pig.

The license system does not stop blind pigs. Last year there were 421 convictions for illicit sales of liquor in the city of Chicago. Chicago is wet enough and yet Chicago's list of blind pigs run into the hundreds.

When I was in Lake Michigan they had ten licensed liquor places and more than ten blind pigs that were quite generally known as such. 2. The liquor men say they are making the announcement of a threat not the execution of a deed.

They could be no blind pigs if under license or prohibition if the distillers, brewers and saloon keepers would not sell to them. When the liquor men say that they will let blind pigs they are making the announcement of a threat not the execution of a deed.

They who have been crying out that the liquor act is undemocratic they who have brought into this country as their chief support a man of no prominence under the guise or rather disguise of a socialist, now announces that they will not abide by one of the most democratic decisions that we have had for years a law enacted at the instance of the petition of the people and of the majority vote of the enfranchised. The ballot is the gift of God and of democracy, yet these people who denounce the liquor act as undemocratic say they will not abide by the decision of the ballot. Just announce they will produce anarchist and criminals who will create blind pigs and prevent the wish of the people from being carried out.

And can we wonder because the whole license system is un-democratic and unscrupulous. It is the upholding of a monopoly so that a few may attain affluence at the expense of hundreds of others. It creates bloodshed and tears, crime and poverty, sickness and shame and death, that a few may be satisfied with wealth and pleasure.

It exploits both labor and capital for the benefit of a few capitalist self-seekers and gives in return sorrow and shame and sin and death. Democracy and common sense, humanity and Christianity call upon you to vote for the Liquor Act and vote Alberta dry on July 21.

Thanking you for this space, I remain

Yours Sincerely,

M. L. Wright.

## Was Troubled With Smothering Spells.

World Wide Up With Death All Gone.

Millburn's Heart and Nerve Pills

Entirely Cured Her.

Mrs. Wm. McElwain, Temperance

Vale, N.B., writes: "I am not much of a believer in medicines, but I must say

Millburn's Heart and Nerve Pills are all right.

Some years ago I was troubled with smothering spells. In the night I would be sound asleep but would wake up with my breath all gone and think I never could get it back. I was telling a friend of my trouble, and he advised me to try Millburn's Heart and Nerve Pills. He also gave me a box which I tried, and I had only taken a few of them when I could sleep all night without any trouble. I did not finish the box until some years after when I felt my trouble coming back, so I took the rest of them and they entirely cured me."

Millburn's Heart and Nerve Pills are 50c per box or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

## When Misrepresentation is Necessary it Proves a Cause to be Unworthy

The Calgary Alberta has ignorantly or deliberately misrepresented the Liquor Act. Read below and satisfy yourself:

Chapter 83 of the Consolidated Ordinances of 1905. Clause 120—"When complaint has been made to a justice that any person by excessive drinking of liquor misrepresents, wastes or lessens his estates or greatly injures his health or endangers or interrupts the peace and his injuries to his family the said justice shall institute proceedings under part VIII of the Criminal Code of 1932 against such person and on finding the complaint well founded, shall by term 3 appended hereto forbid every licensed person in the territories to sell him liquor for the space of two years."

Sub-section 5 of the same chapter says further that when any person knowingly supplies such interdict with liquor he is liable to punishment.

Clause 73 of the Liquor Act says—"The Liquor License Ordinance being Chapter 83 of the Consolidated Ordinances of 1905 and all amendments thereto are hereby annulled."

The Morning Alberta of Calgary, says, editorially, on June 12th, 1915—"The law of interdict is a very good one. It will remain in force just the same after prohibition comes in force as before it will not be very much needed then because the whisky traffic will be destroyed. As there will be no licensed places where liquor can be bought in the provinces the chances for the interdicted man to get liquor will be very greatly lessened, in fact it will be reduced to a vanishing point."

The Alberta has deliberately made this misstatement, or else it displays a gross ignorance of the legislation it is supporting.
